INTRODUCTION

This manual covers the operation and basic maintenance of the Valeport Model 606+ Multi-Parameter Logger with CTD, and contains instrument specific documentation such as calibration details and guarantee certificate. The manual is split into two Sections, as follows:

SECTION 1 MECHANICAL DETAILS

- Sensor specification
- Mechanical specification
- Installation details
- Water Sampler Assembly
- Basic maintenance procedures
- Wiring information
- Calibration information
- Guarantee certificate

SECTION 2 SOFTWARE

The DataLog 400 software supplied is suitable for use with any Valeport Series 400 instrument (including the Model 606+), regardless of specification. This section of the manual is therefore written with this in mind, but specific examples of displays may differ slightly, depending on the sensors fitted. Functions of the software covered include:

- Installation
- Establishing communications
- Instrument setup
- Data extraction
- Data display

CONTACT INFORMATION

If you have any questions about the operation of the instrument, which are not answered by this manual, please contact Valeport Ltd at the following address:
